COMMENTS ON RESULTS

Financial Performance

The Group made a solid start to the financial year 2026/27, with profit attributable to ordinary shareholders increasing by 9.9% to Rs 5,422 million, compared to the corresponding quarter last year. The first quarter's performance reflects improved contributions across all business segments, with foreign-sourced profits (including the foreign subsidiaries and associates) accounting for 69% of Group profits.

Operating income reached Rs 12,699 million, representing a year-on-year increase of 11.7%. This performance was underpinned by the business expansion across the Home Markets and in Corporate and Investment Banking and Private Banking (CIBPB) activities, which delivered an operating income growth of 8.0% and 15.1% respectively. Home Markets, comprising domestic activities in Mauritius and foreign subsidiaries, generated around 45% of the Group's operating income, while CIBPB accounted for the remaining 55%. Main drivers of growth in operating income were:

- Net interest income rose by 17.4% to Rs 8,247 million, driven mainly by the significant increase in our customer loan portfolio and other interest-earnings assets. Margins declined overall as improved yields on rupee-denominated investment securities were offset by lower margins on our foreign currency assets, reflecting the decline in the USD benchmark rate and the higher cost of funding.
- Net fee and commission income grew by 3.8% to Rs 2,262 million, supported by higher revenues from trade finance and wealth management activities, offset by payment activities which recorded a softer performance.
- Net trading income was up by 7.2% to Rs 1,877 million, driven by increased foreign exchange trading and fixed income transactions.
- Other operating income declined by 10.1% to Rs 277 million, mainly reflecting non-recurring gains realised on the sale of financial instruments in the first quarter of the previous year.

Non-interest expenses rose by 13.5% to Rs 4,626 million, driven by inflationary pressures, higher staff costs linked to increased headcount, as well as higher professional fees and technology-related expenditure in support of the Group's growth ambitions. Consequently, the Group's cost-to-income ratio increased to 36.4% compared to 35.9% last year.

Impairment charges increased by 33.7% to Rs 809 million, mainly reflecting higher expected credit losses associated with the significant growth in loans and advances. This resulted in an annualised cost of risk of 50 basis points. The Group's gross non-performing loan ratio improved further to 1.8%, down from 3.0% in the corresponding period last year.

The share of profit of associates declined by 3.4% to Rs 170 million, mainly due to lower contributions from BFCOI and Promotion and Development Group.

The Group's capital adequacy and Tier 1 ratios decreased to 19.6% and 17.4% respectively, albeit remaining comfortably above regulatory limits, reflecting the impact of strong lending growth on risk-weighted assets.

Outlook

The global economy has stayed resilient despite the geopolitical tension in the Middle East. However, energy and freight disruptions have kept commodity prices and inflationary pressures elevated, prompting major central banks to adopt a more restrictive monetary policy stance. Growth in sub-Saharan Africa is holding up, but elevated financing costs and potential El Niño disruptions weigh on prospects.

Across our home markets, Mauritius has remained relatively resilient, supported by growth in tourism and a solid performance from the financial services sector. Maldives and Seychelles have been the most affected by disruptions to air travel. Madagascar, is expected to see growth pick up, supported by post-cyclone reconstruction and stronger agricultural exports.

Looking ahead, the Group will remain focused on supporting its clients as they navigate an uncertain environment while maintaining prudent risk and capital management and pursuing sustainable growth and long-term value creation. The Group's strong start in the first quarter reinforces the Board's confidence in the outlook for the full financial year.

By order of the Board
